swisscellvibe@ems-ch.com | www.ems-company.com

**SWISS BEAUTY CONCEPT**

## FOR EVERY WOMAN

98% of women suffer of cellulite and you may be one of those who are constantly searching for a noninvasive yet effective treatment.

When proper diet and exercise are not enough, Swiss CellVibe® is the solution: intended for all women regardless their grade of cellulite (I to III), weight or morphotype.

## ONE SOLUTION

### SWISS CELLVIBE®

is the result of a decade of technological innovations and clinical research led by EMS on extracorporeal shock wave therapy. (ESWT).

Capitalizing on its patented technology which had revolutionized the field of ESWT, EMS has advanced the technology to address aesthetic concerns with the Acoustic Vibe treatment.

Designed by medical experts and dedicated to beauty professionals, Swiss CellVibe® provides a non-invasive treatment.

The energy delivered by Swiss CellVibe® triggers natural yet complex physiological responses in the subcutaneous tissues leading to the reduction of cellulite appearance and improvement of the skin elasticity and firmness.
